

# Opening WordPad

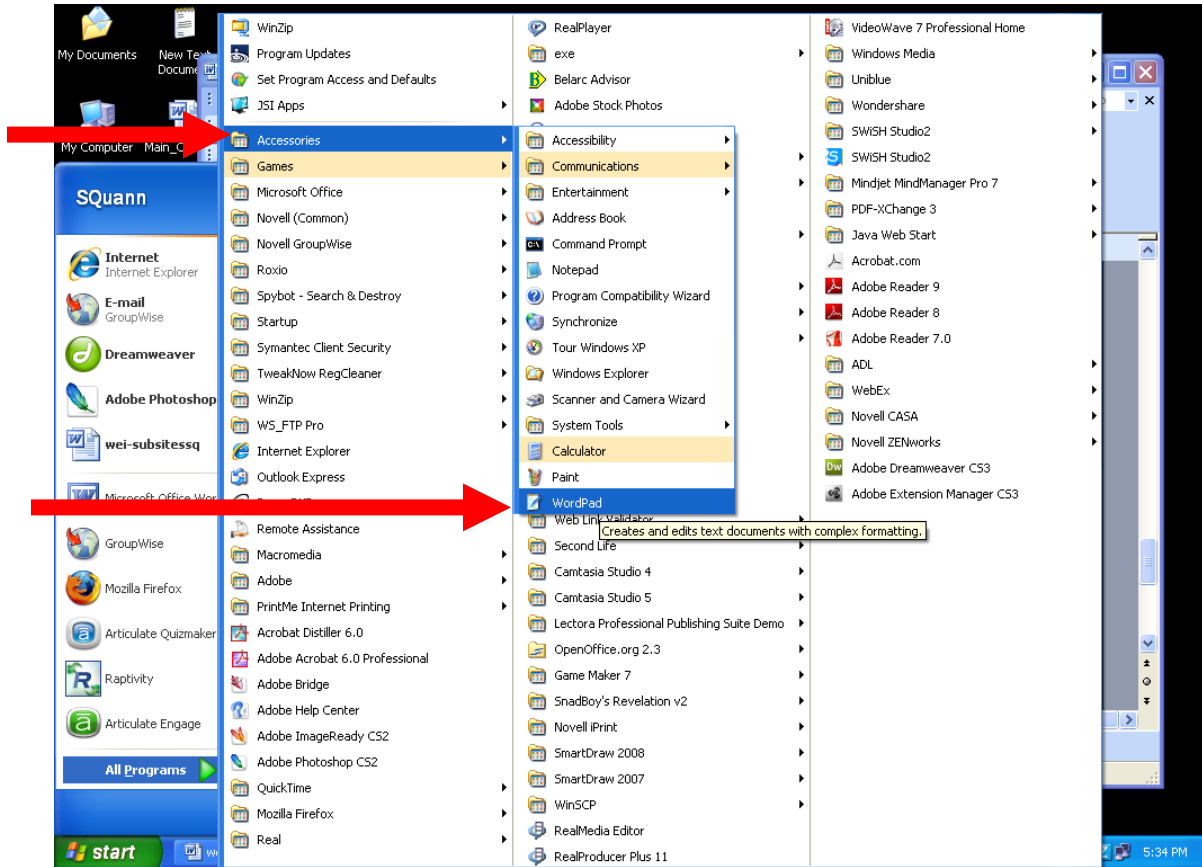

1. Click on the **Start** button in the bottom left corner.

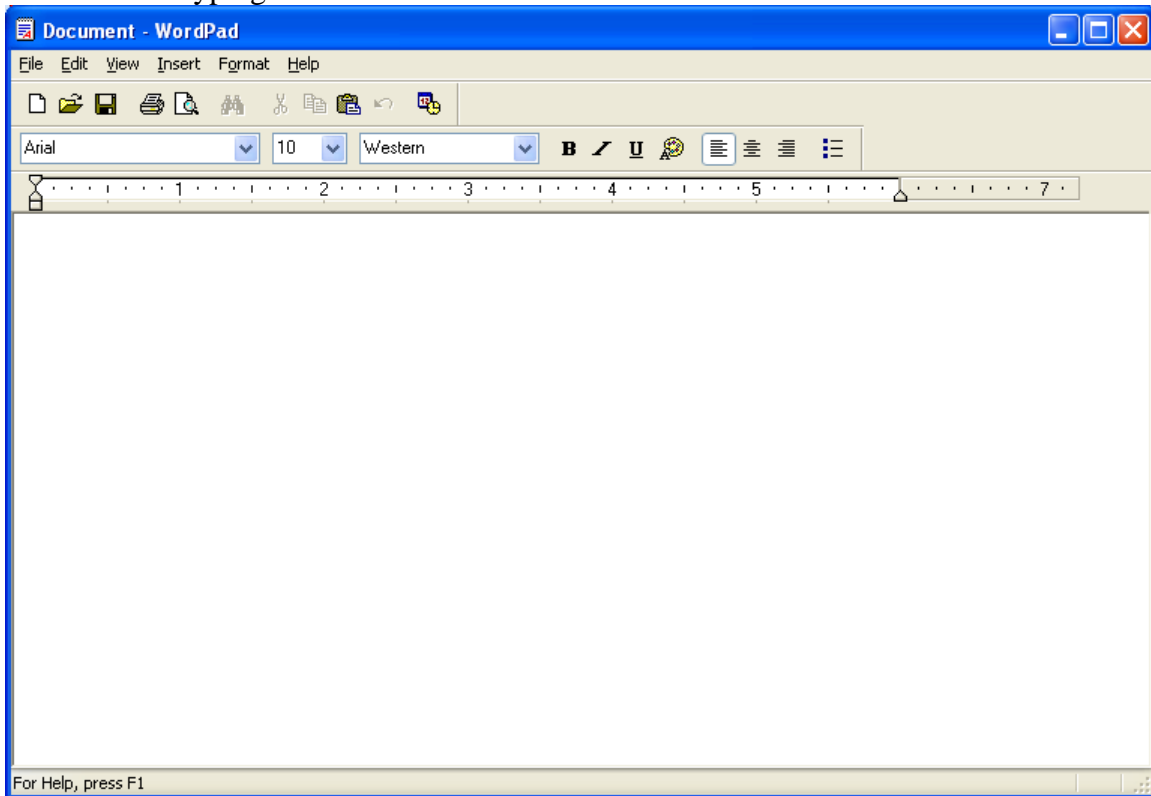

## 2. Move your mouse over All Programs.

3. Move your mouse carefully up to **Accessories** and then over and then down to **WordPad**.

4. Then after you click on **WordPad**, you will see the program open. Click in the white area and start typing.

5. So to summarize go to **Start, All Programs, Accessories, then Word Pad.**
